ENESLOW CUSTOM DEPARTMENT

At Eneslow, we pride ourselves on fit.

That is why we have an on-site workshop with master orthopedic technicians to provide the highest level of custom shoe making and shoe modification services.

Come in for a Free Pedorthic Assessment

Eneslow's Board Certified Pedorthists will conduct a free pedorthic assessment to:

- Evaluate your worn shoes for fit and wear
- Properly measure both feet on weight bearing
- Examine range of motion
- Perform a gait analysis
- Take foot impressions
- Measure foot circumference
- Take casts and trace outlines of your feet

Custom Fabrication and Delivery

Based on this pedorthic assessment and your prescription, we will fabricate custom footwear and orthoses, or modify your ready-made shoes.

We Will Address Your Special Needs

Mis-mated feet, Leg Length Discrepancy, Posterior Tibial Tendon Dysfunction, Plantar Fasciitis, Bunions, Hammertoes, Neuromas, Metatarsalgia, Sports Related Disorders, Arthritis, Diabetes, Charcot-Marie-Tooth, Post Polio, Spina Bifida, Charcot Arthropathy, Multiple Sclerosis, and many more.

Bring us your own shoes and we can:

- Make them wider, deeper, or longer.
- Raise or lower the heels and soles to enhance function and comfort.
- Add special materials to reduce impact and shear forces, control motion, and redistribute pressure.
- Add special closures to help make shoes easy to put on and take off.

We can make your stilettos feel like sneakers!

Our technicians will redesign your pumps to provide more toe room, reduce the pitch of the heel and relieve pressure to the ball of your foot.

Your worn shoes and orthoses will look and feel like new!

Our on-site factory will return your worn products to better than new. We evaluate your wear patterns, and provide the best materials and workmanship. This results in increased comfort, fit, and durability, offering unique value for your footwear investment.

Do you need a custom molded shoe?

Custom molded shoes help people with hard to fit feet, partial foot amputations, or foot deformities that ready-made footwear cannot accommodate. Ask your health care provider if you would benefit from Eneslow custom footwear.

Custom Dress Shoes-The ultimate footwear luxury for fit and fashion!

Available in virtually any style, only the highest quality leathers, suede, exotic skins, and man-made materials are used in the construction of YOUR shoes. We utilize only hypo-allergenic materials and adhesives to avoid irritation.

Since 1909, Eneslow is your one stop shop for custom footwear, as well as modifying your own footwear for optimal function, performance, and comfort.

Watch "COMFORT FOR THE SOLE" at Eneslow.com and see how we can make your stilettos feel like sneakers!

Our technicians will redesign your pumps to provide more toe room, reduce the pitch of the heel and relieve pressure to the ball of your foot.

Introducing Otabo Orthopedia Custom Footwear

Otabo is redefining the way people buy custom made shoes - the old fashioned way with new technologies.

The smallest details of your shoes are exquisitely crafted.

Visit www.eneslow.com to download a catalog of styles and to learn how Otabo can create custom shoes made for YOUR feet.

At Eneslow, we fit your feet whatever shape they're in!
