FINNAMIC by Finn Comfort

‘Pretoria’ Walking Shoe: Handcrafted comfort shoe features a uniquely shaped rocker sole that reduces stress on your knees and joints, while helping to tone your muscles and improve posture.

- Lace-up style
- Removable orthopedic footbed
- Leather upper & lining/polyurethane sole
- Men/Women

CLARKS WAVE

Wave, wheel: for women, has a flexible soft upper and requires no break in. Features stitching and tonal overlay detail. Removable Ortholite footbed plus removable EVA heel support reduces step shock and provides walking support. Also allows for the use of custom orthotics.

- Heel Kicker transitions heel motion
- Rocker Sole minimizes impact of each step
- Concave Heel designed to soften heel strike

Mephisto

Sano - Raptor: With its Multi Vibration System in the midsole and the rocker style outsole, the Sano Evasion encourages better posture and activates ignored muscles and improves muscle tone. It’s also possible to put an extra padding is needed around the heel, collar and tongue.

- Enhances blood circulation
- Relaxes tense muscles
- Improves posture and soothes joints
- Tones and tightens

Dansko

Professional: The high toe box gives toes plenty of room to move, while the rocker-bottom design enhances the walking motion. Protective Polyethylene heel counter allows the heel to move up and down when walking. Also provides lateral stability and acts as a natural shoe horn.

- Open-back style
- Instep collar is generously padded
- Outsole provides shock absorption and flexibility

Z-Coil

Santa Fe: Z-Coil’s patented, shock-absorbing design greatly reduces impact to the body and distributes pressure more evenly across the foot than conventional shoes do. The Santa Fe for example, a dress casual work shoe, has a soft full-grain leather upper and an extra-soft felt-lined insole.

- Double-toe stitching
- Lace-up styles
- Available in running shoes, walking shoes, hiking boots, sandals and clogs
- Men/Women

Xsensible

Stretch Walker: Stretch Walkers combine a Japanese sole and Xsensible stretch technology. The bottom sole is the balance point that promotes automatic roll-off of the foot.

- Make walking easier
- Body’s posture improves
- The diagonal wedge causes natural roll-off

Skechers Shape Ups

Metabolize: Shape Ups are designed to get fit while walking; it will enhance the feeling and looking; muscles get toned, calories are burned and the posture improves.

- Kinetic wedge
- Promote weight loss
- Strengthen the back, calf and buttock muscles
- Lace-up style
- Reduce stress on knee and ankle joints

Alden-Pedic CDI (Contour Depth Inlay) last. Designed to accommodate full length orthotics. Constructed to fit a medium or low arch and flat foot.

- Lace-up style
- Business Wear

RYN

Nazza: RYN Footwear significantly reduces joint stress, and maintains excellent lateral stability. Wearing RYN Footwear will also increase muscle activity, and stimulate core and posterior muscle groups.

- tones the body
- enhance blood circulation
- help to prevent spinal disc hemiation
- help to protects and strengthen knee joint

FitFlop

Walkstar I RED: FitFlop footwear is biomechanically engineered to help tone and tighten your leg muscles while you walk in them. Studies at the Centre for Human Performance at LSBU show that normal walking in FitFlop sandals(1) can help:

- Improve blood circulation, balance and posture
- Curved layered sole improves posture
- Lace-up style
- Men/Women

New Balance

1123: The latest model in the 1100 Motion-controlled has an ABZORB® heel & forefoot providing optimal shock absorption & no compression set

- Multi-density insert
- Crash pad for maximum durability
- Blown rubber outsole is lightweight and cushioned
- Microwobbleboard™ midsole technology
