**Ballistic "Little Giant Target"**  
*Safe Discharge and Easy Pull!*

The New Ballistic Discharge Box is the perfect answer for crossbow hunters who need to safely discharge their bolts after their hunt without the risk of injury and without the familiar struggle when pulling bolts from foam targets.

The Little Giant has an upright familiar target style which makes it easy for crossbow users to hit the mark without the risk of hitting the ground. And at fourteen inches square and only 13 lbs. the ballistic discharge is perfect for transporting to the field. Rated at 375 fps, the ballistic discharge target safely stops crossbow bolts with ease and can take a few shots for tuning up or checking your scope at lunch time.

**Specifications:**  
14" by 14" • Rated 375 fps  
2 Finger pull • Only 13 lbs.

Selected only weeks before sold. Stored cool to maintain freshness. Every bottle is packed in an insulated package, with its own serial number, and is dated for use during the hunting season. Must be refrigerated. Available Sept./ Nov.

**FRESH EARTH SPRAY**

Scent-A-Way Fresh Earth Advanced Formula Spray combines four key elements to help prevent and control odors: molecular conversion, oxidizing, bonding and neutralizing. We're proven it in the lab, but more importantly, it passes the ultimate test—the nose of the deer, elk and predator.

Scent-A-Way Fresh Earth leaves a fresh earth cover scent. Scent-A-Way Advanced Formula Spray is all natural, safe, and environmentally friendly. It won't stain or fade clothing or materials and is not harmful to your skin.

**Pro-Pak** Includes one 32 oz. bottle and two 12 oz. (01166) spray bottles, filled with Scent-A-Way® Fresh Earth Spray.

BONUS PACK 01165

**CONTINUOUS SPRAY (01220) UNSCENTED**

Scent-A-Way® Continuous Spray provides the same proven human scent control as the original Scent-A-Way in a handy aerosol form that eliminates spills and waste.

Scent-A-Way Continuous Spray combines four key elements to help prevent and control human scent: molecular conversion, oxidizing, bonding and neutralizing in a laboratory tested formula that has been proven highly effective. The container allows for a continuous spray – even with the can upside down. It provides faster, more even coverage.
