The Boil Advisory for the Pocono Mountain School District East Campus at 208 Campus Dr., Swiftwater. PA has been lifted as of Friday, September 7, 2018. You no longer need to boil your water.

On Wednesday, September 5, 2018 there was a loss of positive water pressure. As a result, there was an increased chance that the water may contain disease-causing organisms. Water samples were taken from the locations and tested for total coliform and e-Coli. All water samples taken from these areas have passed the lab testing.
