**TO WATER CUSTOMERS IN POCONO AND TOBYHANNA TOWNSHIPS**

**NOTICE DATE: TUESDAY, MARCH 28, 2017**

Dear Water Customer,

PennDOT will soon begin a major highway reconstruction project on route 611 between Scotrun, PA and sanofi pasteur in Swiftwater, PA. This multi-year project (starting on or about April 3, 2017) will not only affect the highway itself, but storm water lines, sewer lines, and the water lines of the Brodhead Creek Regional Authority (BCRA).

This PennDOT project requires the “relocation” of portions of the BCRA water lines. The BCRA has spent over \$250,000 in engineering and planning costs over the last 18 months working with the PennDOT design engineers to “minimize” any disruption of water service to its customers and to minimize and limit any “boil advisories” to its customers. The BCRA has also worked with Leeward Construction (the PennDOT contractor) to coordinate this effort.

The BCRA will have its personnel working with the contractor to help this project go as well as possible. Much of the water line relocation and reconnection work will occur at night.

The BCRA will give notice to its customers if there is a planned temporary water outage or boil advisory in advance of that work.

Please contact our office at (570) 421-3232 or check out our website at [www.bcrawater.com](http://www.bcrawater.com), if you have any questions.
