

Dear Seeker of Improved Health:

Your interest in contacting me indicates you are serious in your desire for improved health. You are not yet my client, however, you may still learn what tests may be ordered and what plans you could follow by starting your search with my following recommendations:

You may speak to a representative at my office by dialing 928-472-4263, Extension 134. I have extensive information on my website www.gordonresearch.com related to many diseases, primarily cardiovascular disease, heavy metal toxicity and anti-aging. To find articles that are of interest to you, simply type in the topic of interest by SEARCH. The FAQ section is continually being updated and contains my answers to common questions.

Follow my Basic Program until you can get to a competent medical practitioner or have a scheduled telephone consultation with me.

BEYOND CHELATION IMPROVED	1 packet twice a day
ESSENTIAL DAILY DEFENSE	2 capsules twice a day with meals
BIO ENERGY C	½ to 1 tsp twice a day

All of these products are available through Longevity Plus. Please feel free to call them with any questions, concerns or to have a product list sent to you. They can be reached at 800-580-7587, Monday through Friday, during standard business hours or anytime at www.longevityplus.com. Please take these supplements with plenty of water, the best quality you can afford, such as Penta water.

Look under Providers on the Longevity Plus website to find a practitioner near you that carries our products and understands their use. A list of some of these doctors is available online at www.acam.org. These doctors belong to professional organizations of which I am a member, such as ACAM, the American College for Advancement in Medicine. I recommend

you contact any of these physicians for additional information on alternative approaches in solving your health problems.

The staff of Longevity Plus can provide you with a list of available CD's and books, including my *Omega 3 Miracle*. For those who want to hear the latest information on new chelation, oxidative and cancer therapies that work, or information on autism, ask for the recordings from my various conferences. These recordings have proven useful to our friends and clients around the world who are trying to learn more about my current approaches to various health problems.

The following is a brief outline of my extensive background and qualifications and my general consultation procedures.

I received my Doctor of Osteopathy in 1958 from the Chicago College of Osteopathy in Illinois. I received my Honorary MD degree from the University of California Irvine in 1962 and completed my Radiology Residency from Mt. Zion in San Francisco, California in 1964. For many years, I was the Medical Director of Mineral Lab in Hayward, California, a leading laboratory for trace mineral analysis worldwide. I am on the Board of Homeopathic Medical Examiners for Arizona, am Co-Founder of the American College for Advancement in Medicine (ACAM) and am on the Scientific Advisory Committee for the Board of the National Foundation for Alternative Medicine in Washington, D.C.

I am Founder and President of the International College of Advance Longevity (ICALM) and Board Member of International Oxidative Medicine Association (IOMA). With Morton Walker, DPM, I co-authored *The Chelation Answer*. I am an advisor to the American Board of Chelation Therapy and past instructor and examiner for all chelation physicians. I am also responsible for Peer Review for Chelation Therapy in the State of Arizona. As an internationally recognized expert on chelation therapy, I am now attempting to establish standards for the proper use of oral chelation therapy as an adjunct therapy for all diseases. I lecture extensively across the globe on the "End of Bypass Surgery is in Sight" and "The New Chelation".

Currently, I am a full-time consultant for nutritional supplement companies, one being Longevity Plus, located in Payson, Arizona. I am responsible for the formulation of the majority of their supplements, which are widely used by alternative health practitioners around the world. Concurrently, I specialize in telephonic consultations recommending alternative therapies, supplements and oxidative treatments.

Consultations are available via telephone at the rate of \$300 per half hour. This covers all preparations and review of medical history as well as a 30 minute phone consultation. If additional time is required, it will be charged at a rate of \$75 per quarter hour or \$150 per half hour. If your doctor is available on the phone with you during the consultation, the price is \$150 per hour. Because of the degree of information received during a call, each consultation is recorded and the MP3 file is sent to you at no extra charge. I recommend that you listen several times until you are completely familiar with all information recorded on it. Additional services are as follows:

Written Transcript of Consultation:

\$100 one hour or less
\$200 two hours or more

Written Protocol of Suggested Supplements:

\$50 initial protocol
\$0 revisions (up to 4 items)
\$25 revisions (4-10 items)
\$50 complete revision of protocol (over 10 items)

There is no charge to speak to a consultant. Consultatnts are available 8a.m.-5p.m.

To schedule an appointment, call (928) 472-4263 ext 134, Monday through Friday, during standard business hours.

During a consultation, I often suggest tests and/or treatments that will be beneficial before referring you to the physician of your choice. Also, during a consultation, I will recommend a variety of nutritional products that have undergone extensive research and possibly supplements I have developed from my over 40 years of medical knowledge. I have found these nutritional products to benefit virtually any known health condition. Some examples are: heart disease, cancer, arthritis, chronic fatigue, anti-aging, hypertension, immune enhancement, menopausal-related conditions and impotence to name only a few.

Thank you for your interest.

Sincerely,

Garry F. Gordon, MD, DO, MD(H)
President, Gordon Research Institute
